26. LIST LOCAL GROUPS

```
PS C:\Users\bhara> Get-LocalGroup
```

Name	Description
Administrators	Administrators have complete and unrestricted access to the computer/domain
Device Owners	Members of this group can change system-wide settings.
Distributed COM Users	Members are allowed to launch, activate and use Distributed COM objects on this machine.
Event Log Readers	Members of this group can read event logs from local machine
Guests	Guests have the same access as members of the Users group by default, except for the Guest account which is further restricted
Hyper-V Administrators	Members of this group have complete and unrestricted access to all features of Hyper-V.
IIS IUSR	Built-in group used by Internet Information Services.
OpenSSH Users	Members of this group may connect to this computer using SSH.
Performance Log Users	Members of this group may schedule logging of performance counters, enable trace providers, and collect event traces both locally and via remote access to this computer
Performance Monitor Users	Members of this group can access performance counter data locally and remotely
Remote Management Users	Members of this group can access WMI resources over management protocols (such as WS-Management via the Windows Remote Management service). This applies only to WMI namespace...
System Managed Accounts Group	Members of this group are managed by the system.
User Mode Hardware Operators	Members of this group may operate hardware from user mode.
Users	Users are prevented from making accidental or intentional system-wide changes and can run most applications

27. LIST USER ACCOUNTS

```
PS C:\Users\bhara> Get-LocalUser
```

Name	Enabled	Description
Administrator	False	Built-in account for administering the computer/domain
bhara	True	
DefaultAccount	False	A user account managed by the system.
Guest	False	Built-in account for guest access to the computer/domain
WDAGUtilityAccount	False	A user account managed and used by the system for Windows Defender Application Guard scenarios.
WslAccount	False	A user account managed and used by the system for Web Sign-in scenarios.
